Columbus Square Park

PASSYUNK SQUARE | OPEN SPACE AND NEIGHBORHOOD ANCHOR

... pro bono preliminary design leads to success: improvements to the park are slated to begin Spring 2018

Two athletic fields for adult and youth leagues occupy much of Columbus Square Park. But the surrounding community needs more space for gathering, performing, getting in touch with nature, and simply relaxing. The Collaborative provided a design process that enabled neighborhood park users to work with public agencies to envision a greener, more diversified park. The resulting conceptual plan reduces the land area allocated to athletic fields by 25% and demolishes an underutilized storage building, freeing up space for a new entrance, more pathways, an expanded dog park, and a communal “lawn” and “patio.”
